

# Year Five History - Knowledge Organiser - The Ancient Egyptians

## The British timeline

## The ancient civilisations timeline

Ancient Egypt is considered to be the most stable civilisation in history because it lasted for so long.

## The River Nile

- Ancient Egyptians relied on the River Nile for survival because Egypt is surrounded by desert.
- They developed a farming calendar based on the annual floods, so they could plant crops at the right time
- They invented ways to water their crops using water from the Nile, including inventing Shadufs.

## What are the Ancient Egyptians known for?

- They invented written communication called hieroglyphics
- Scribes and priests kept detailed records on papyrus.
- The Rosetta stone allowed scholars to translate hieroglyphics.
- Pharaohs were powerful kings and queens who ruled Ancient Egypt.
- They had complicated rituals surrounding death, including mummification.
